SUMMARY

Incoming student at Duke University looking for an internship opportunity this summer. Would love to learn about the tech or finance field.

I have a skillset in Artificial Intelligence, Full-Stack development, and entrepreneurship.

EXPERIENCE

Design Intern

CodeCombat, Inc.

📅 05/2022 - 02/2023 📍 San Francisco, CA (remote)

- Collaborated with Development VP to spearhead curriculum design for new product launch.
- Worked as backend developer for the game, Ozaria, which is used by 20 million learners worldwide.
- Provided a unique perspective as a student who took AP CSA which was valuable in creating effective study material for future learners.

Founder

Shield Our Health Heroes

📅 03/2020 - 05/2021 📍 San Diego, CA

- 3D-printed 1100+ face shields & donated to hospitals.
- Raised \$1100+; Featured in Union-Tribune & ABC News & received the Scripps Hospital Leadership Certificate.
- Created website with an online donation system.
- Marketed initiative through cold emailing news agencies for public exposure.

Executive

Zipline Theory

📅 04/2020 - 04/2021 📍 San Diego, CA

- Involved in early stages of the organization's development which included creating website and recruiting 5 teachers.
- Developed curriculum as well as taught computer science and business skills to youth during quarantine.
- Marketing efforts allowed us to reach 500+ students internationally and receive many sponsorships (including from the Department of Defense).
